

# CAPRI

The Capri is loaded with features and is a capable coastline, bay, lake and pond cruiser. The light and well balanced weight of the Capri is easy to car top for paddlers of most sizes. The trihedral hull design has a long enough water line to carry a comfortable cruising speed. This 12' performer carves similar to higher end touring kayaks but enables the first timer to appreciate performance in a user-friendly package. The exceptional stability creates an ideal platform for fishing, bird watching and easy river cruising. Features include gas pedal rudder control, bow deck pack net, bow lanyard, adjustable backbrace, ergonomic seat with water bottle holders and rear screw hatch with sealed bulkhead storage. A great value loaded with performance and features.

## CAPRI BASIC

A recreational version of the Capri. The Capri Basic comes equipped with quick and easy, no adjustments necessary, step-fit footbraces and an ergonomic seat with water bottle holders and backstrap. This is a great entry level user friendly craft.
