

SEAGULL

If you crave our original Seayak in glass, the Seagull is IT and more. The upswept bow and stern design of the Seagull is influenced by Greenland-style open water kayaks and guarantees exceptional rough water handling for small to mid-sized paddlers. The pronounced, hand crafted Trihedral hull of this ultra-light performer provides outstanding speed, stability and amazing glide. The deck pack net is convenient for those small, essential items. The deck line is perfect for lashing and ergonomic carrying handles make loading and un-loading effortless. Found only on the Seagull, a handy day hatch brilliantly compliments the spacious bow & stern hatches which combine neoprene, hard plastic and quick-release webbing straps. The seat, thigh and cockpit area create a synergy of comfort.
