

SEAYAK

The proven performer year after year, the Seayak is one of the most popular and versatile open water kayaks ever made. The upswept bow and stern design of the Seayak is influenced by Greenland-style open water kayaks and provides exceptional rough water handling for mid-sized paddlers. The HTP blowmolded construction combined with sleek lines and a very functional design create a superb kayak for the hard-core or casual open water paddler. The Seayak's Trihedral hull provides outstanding speed, stability and, without question, amazing glide. The fit is secure and accommodating as a result of the adjustable thighbraces, the comfortable ergonomic seat and the on-the-move adjustability of the backbrace. High capacity storage compartments and complete deck outfitting make the Seayak an ideal kayak for lengthy self-supported trips, day cruises and river tours.
